

Dean Close School Clinics – Michaelmas 2018

Clinics are available for any pupil. They are a chance for a pupil to ask specific questions about any taught content of a specification or to improve exam technique. They are non-compulsory, 'drop-ins', meaning that no prior notice to the teacher is required. The expectation is that the pupil will decide whether they should attend and which one to choose.

The clinics take place in the relevant department.

All subjects, regardless of whether they run a clinic or not, will provide extra help with specific problems by arrangement.

The number and timings for clinics is reviewed throughout the year on a termly basis by department.

Biology

Mondays: 1.30-2.15pm (iGCSE) in B1
